1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, p. 1, line 4, the phrase "now U.S. Patent No. 6,709,763," follows "filed November 20, 2001".

2. Claims 1-17 and 28 are allowed.

3. The following is an examiner's statement of reasons for allowance:

4. Weaver discloses starch-containing polymer compositions for absorbing water in diapers, surgical pads and sheets, and paper towels. Starch-polyacrylonitrile graft polymers are formed, where the starch used has been solubilized. Coatings of the copolymer may be applied to substrates including animal litter or bedding, cloth, and fiber. However, the reference does not specify the application to the claimed hydrophobic polymeric substrates, does not teach the claimed nodules, and does not suggest the claimed layer thickness. It is the examiner's position that the claimed articles, having specified substrates, surface structures, and layer thicknesses, provide a novel and unobvious step over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
